ABSTRACT

This report, based on late 1969 and 1970 photography, updates the previous basic reporting on four of the major power plants in Kiangsu Province, eastern China. Three other plants were not covered on interpretable photography since the previous report. The cut-off date for information is November 1970.

No changes were observed at four plants and they were all operating. No interpretable photography was obtained of Min-hang Thermal Power Plant, Shang-hai Heat and Thermal Power Plant Wu-ching, and Shang-hai Thermal Power Plant Cha-pei.
